Company Heritage

T&E Tools® was founded by Mr Roger Kirkpatrick in 1986.

The business began with Roger selling the very best USA made speciality service tools for the Automotive & Industrial markets in Australia.

In 1997 we started getting the best tool manufactures in the USA & Taiwan to make and brand using the T&E Tools Logo.

By only using the world's best manufacturers to make on behalf of T&E Tools we deliver the best quality products to the end user.

T&E Tools® Global Headquarters are located in Sydney Australia, with additional distribution warehousing / sales offices in New Zealand, USA & England

Now we have gone an extra step further and designed and engineered a professional range of tool boxes that will exceed all expectations. Having the strength and durability for the Automotive and Industrial markets requirements all over the world.

With more than 55 years of working experience in two generations from Father to Son, we have put our best knowledge in the automotive, Heavy Transport, Aero-Space, Marine, Mining and Agriculture industries.

T&E Tools have a proven background to be an innovator and leader in the professional tool market.

Our toolboxes are made from the highest quality material's and incorporate market leading features.

Contact us today for more information about our toolboxes, tool carts, tool chests & wall cabinets.
